

1917

### A SPECIAL ANNOUNCEMENT.

The following remarks will answer some of the questions which have arisen in your mind concerning the work at this place. This institution was launched in the fear of God for the welfare of our young. Shall the work go on? We believe that the many who are silent, feel in their heart a desire to see the work prosper. Who would not rather send their children to a school where God's word is revered and the teachings of our fathers are held as the right way for all to follow.

\* \* \* \* \*

You ask, is it safe to send our young people away to school? It is an important question. Before doing so consider it carefully and prayerfully. The youth needs to be well guarded.

\* \* \* \* \*

Strangers, who have visited the school this term, expressed themselves, that the very atmosphere is an incentive to right living. The students are continually encouraged to let Christ have first place in their lives. Some while seeking to become more like the Master, found Him a ready helper. At present God is laying the burden of prayer on his children in behalf of the work.

\* \* \* \* \*

An interesting list of Bible subjects, such as Bible Outline, The Gospels, General Epistles, Prophetic Literature, and others will be taught during the Winter term. This will start Monday January 1, 1917 and close March 29, 1917. This work is open to students of all ages, regardless of what your past education has been. At a small cost you can spend

your Winter months in this most profitable way and besides, enjoy the ten days Bible Conference. You need not fear that you will not be able to do the work, since, you are allowed to choose your own subjects and only as many as you can easily prepare for each days recitation.

\* \* \* \* \*

Some who have been planning on coming to school are hesitating on account of the report of the sickness which is more or less prevalent through the whole country. The scare in this section has ceased and a number that were sick have recovered. We feel to say, that it seems to us; that one is no more apt to get sick at the school than at any other place. A change of climate is as a rule good for most people's health, this has proven true in our student body. Some who have come

1000 0000 2066

from out side the State have expressed themselves to this effect.

\* \* \* \* \*

The spirit of the school is much improved over last year. The students show an interest in their work. Respect shown to those in authority and this attitude proves that our young people are of a good character.
