
ANNOUNCEMENT.

MESSIAH
BIBLE SCHOOL
and
MISSIONARY
TRAINING
HOME.

JUNE FIFTEENTH,
One Thousand Nine Hundred
and
Twelve.

The Messiah Bible School and Missionary Training Home will, we believe, commend itself to the general public as a safe, well equipped school to which young men and women may be sent for the necessary moral and intellectual training to prepare them for greater usefulness in the world's activities.

The School opened in the fall of 1910 with five teachers. In order to meet the demands for more thorough work, two teachers were added during the first year. At present there are nine teachers, most of whom are specialists along their various lines. We are therefore equipped to offer, in a very thorough manner, a wide range of subjects.

COURSES OF STUDY.

1. General Preparatory.
2. English Scientific.
3. College Preparatory.
4. Pedagogical.
5. Vocal Music.
6. Commercial.
7. Bible.
8. Missionary Training.

TO THE PARENTS: If you have sons or daughters whom you wish to prepare for the farm, business, teaching or college, send them here, where you can feel assured that they will be taken care of and where every possible safe guard will be thrown around them for their highest moral and intellectual development. We do not claim our school to be superior to others, but by conducting it on Bible lines we hope to avoid some of the disastrous results following the attendance at schools where 'Destructive Higher Criticism' is fostered and the Bible is not held as the main rule of life and action. We would therefore kindly ask that you acquaint yourself with what we have to offer in the different courses, and concerning the reasonable charges for tuition, board, etc.

We aim to take students after having completed their common school work, but will for the present accommodate children of the common school grades.

TO THE YOUNG MEN AND WOMEN: Our school, although recently established is being patronized by prospec-

tive teachers and teachers of two and three years experience, who are preparing to take County examinations for provisional and permanent State Certificates, prospective business men and prospective foreign missionaries. We are in a position to give a course in pedagogy (teacher's course) equal to that offered by our State Normal Schools; and a commercial course, including bookkeeping, stenography and typewriting, equal to that offered by standard business colleges.

LOCATION: Grantham is located in Cumberland County, Pennsylvania, ten miles southwest of Harrisburg, on the Philadelphia and Reading railroad, along the Yellow Breeches creek, noted for its scenic beauty.

For the size of the place, there are few if any towns or villages in the State, or any where else, that can show an equal amount of modern improvement for public service. We have electric lighted streets, a public water supply, good railroad facilities, three incoming and outgoing daily mails, except Sunday, a National Bank, a modern equipped printing plant, and a public laundry to be installed in the near future.

OUR MOTTO: We believe in the gospel of Hard Work, and that, 'Eternal Vigilance is the price of Success'. Time is fleeting and must be redeemed, to be of value to us. We have no accommodations for drones. We believe in utilizing the energy of youth to equip the mind for development which will bring its sure fruitage in future years, of increased usefulness in the world's marts and professions. Our school has commended itself to the public to the extent that parents of the immediate community took their children out of the public school and paid our reasonable charges for tuition and incidental expenses.

We heartily invite an inspection of our school, and when this is not possible, if requested we shall be pleased to send you a catalogue.

Yours for service,
Enos H. Hess, Secretary.
Grantham, Pa.
